User’s Manual

(Version 1.0.0)
June 2016

Government of West Bengal
Department of Finance (Revenue)
Directorate of Registration and Stamp Revenue
1. Requisition form Entry:

(From Web site for Assessment of market value and determination of chargeability of Stamp Duty and Registration Fees):

Prior to presentation of any document for registration before the proper registering officer, procurement of assessment slip is a must. Assessment slip is generated after filling of requisition form. Assessment slip contains not only the market value of properties & the amount Stamp Duty and Registration Fees payable for registration of the document, but also the details of the properties under transaction & the details of the parties to the document. Requisition Form can be entered from the website of the Directorate of Registration and Stamp Revenue, West Bengal (www.wbregistration.gov.in) by Clicking on the menu item as:

www.wbregistration.gov.in ➔ Citizen Services ➔ e-Requisition form Filling

Fig-1
On clicking this menu one message box will be displayed as shown in the figure below and user has to select “Fill up New Requisition Form” option selected in red colored box. Then requisition entry page will appear and user has to fill up the details.

![Requisition Form Fillup](image)

Fig-2

After completion of requisition form entry system will automatically generate e-assessment slip informing required Stamp Duty and Registration Fee payable for Registration of the deed and SMS containing required Stamp Duty and Registration Fee payable will be send to the given mobile no.

1.1 The requisition form entry process has four sections:

1.1.1 Applicant and Transaction
User has to fill up Applicant and Transaction details here

1.1.2 Transferor & Transferee
User has to enter Executants and Claimants details here

1.1.3 Property Details
User has to enter Property details i.e. Land /Structure/Apartment details

1.1.4 Finalize
Finalize the Query Details entered.
1.1.1 Applicant & Transaction
User has to enter the Applicant & Transaction details in this section and the mandatory details must be entered. Here user has to select at least one Land/Land with structures or Apartment details. For all book –I transactions user has to select at least one Land or Apartment. Without selecting any Land or Apartment following message will appear:

![Image of message box: Please select Land or Apartment!]

**Fig-4**

After successfully submitting this form a unique transaction ID will be given and this transaction ID can be used later to retrieve information in case of any incomplete entry or communication failure.

![Image of note: Please note down the Transaction ID 2016000341346. This Transaction ID can be used to retrieve user information incase of communication failure.]

**Fig-5**

[Fig-6] below shows an Applicant and Transaction section of the Requisition form Entry screen.
1.1.2 Transferor & Transferee

In the Transferor & Transferee section user needs to fill up the Transferor & Transferee details. All (*) marked fields are mandatory in every form in this section and must be entered by the user.

1.1.2.1 Transferor details entry:

10. Religion/Caste
11. Address
12. Country
13. State
14. District
15. Police Station
16. Road Name
17. Village/City/Town
18. Post Office
19. Pin No
20. Mobile No
21. **Deed Execution By**: It may be any one of the following:
   - Self
   - Attorney
   - Judge
   - Not Executed

22. **Date of Execution**: Execution date to be entered
23. **To be admitted by**: It may be any one of the following:
   - Self
   - Attorney
- Judge
- Guardian
- Representative
- Not Executed

For the Transaction sale (Sale as major and Sale Document as minor) Transferee details entry page looks like as shown in the figure below:

Figure:
1.1.5 Identifier details entry:
After entering Transferor and Transferee details user has to enter Identifier details. Here user has to fill up all details same as the Transferor and Transferee details entry form. As in the previous forms here also all the (*) marked fields are mandatory. Identifier details entry page looks like as shown in the figure below:

![Identifier Details Form]

Figure:

Note: When user enters an Identifier name, all the Transferor and Transferee name will be displayed. User has to select the Transferor and Transferee who will be identified by the Identifier.
1.1.6 Property Details

User must input at least one land or apartment details. For the entry of Vacant Land or Land with Structure or Apartment details user has to click on the corresponding links as shown below( those will be displayed in the left side tree of the page:

![Diagram showing the tree structure of property details]

Figure:

1.1.6.1 Land

The user needs to provide the following information regarding the details of the land that is to be Registered:

- District where the land is located
- Name of the registration office having jurisdiction over the land
- Local Body
- Name of the Local Body
- Road zone details of the land being transacted, etc.
- Plot code type
- Plot no/Bata Plot no
- Khatian no/Bata Khatian no
- Proposed land use
- Nature of land
- Area of land (The user can provide the area of land in any unit. The system will automatically convert the total into Decimal).
- Adjacent to Metal Road or not
- Is the property on Road or not
- Width of approach road
- Litigated Property or not
- Bargadar (if any)
- Encumbered by Tenant or not
- Whether 1st time registration or not
- Whether Bargadar exists or not and consideration value of the plot
- Whether Tenant is a purchaser or not
- Consideration Value, etc.

Figure:

After entering these details user has to enter share of Transfer of Land from each Seller to each Buyer. It could be selected as Equally Distributed or it can be shared by area or by percentage. In case of ‘by area’ or ‘by percentage’ selection the total share entered must be equal to 100%. If the percentage of share is less or greater than 100% then land details will not be saved. Transfer of Land from each Seller to each Buyer section looks like as:
After entering the entire details user must save the data. After successfully saved one message box appears as shown below, where the user is asked whether he wants to insert more plots or not.

If the user wants to insert another plot then he needs to select [Yes] option. On selecting [Yes] option, the next land details entry page will appear where user needs to fill up the land details for the next plot. In this way user can enter multiple land.

Using the [Delete] button the user can delete the land details already entered. When user clicks on delete button one message box will appear and user has to select [Yes] button to confirm deleting the selected land.
1.1.6.2 Structure

The Structure Entry form is used to record information about structures constructed on a land. At the top of structure entry form user has to select the land against which structure is to be entered. User may select any type of the following structures: (i) Structures (ii) Covered Garage (iii) Open Garage

The user has to provide the following information about the structures:

- Constructed area of the building
- Whether tenant is Purchaser
- Consideration value
- Total no of floors
- Number of shops if any
- Lift facility
- Car-parking area
- Whether 1st time registration
- Litigated Property or not
- Floor no
- Structure Type
- Floor Type
- Roof type
- Age of Floor

Also the Transfer of Structure from each seller to each Buyer must be entered by the user.

Structure details entry page looks like as below:
After entering all details user must have to save the data. After successfully saved one message box appears as shown below, where the user is asked whether he wants to insert more Structures or not.
If the user wants to insert another structure then he needs to select [Yes] option. On selecting [Yes] option, the user will see the next structure details entry page where he needs to fill up the structure details for the 1.1.6.3 Apartment

The <Apartment link> on the left side tree of the screen is used to enter details about [Apartments] or [Flats] for which the applicant wants to generate the market value.

Following types of Apartments may be selected: i) Flat /apartment ii) Mezzanine floor iii) Covered garage iv) Open garage v) Servant quarter vi) Asbestos /tin shed structures vii) Roof right (with construction right) viii) Roof right (without construction right)

In this form the user has to provide following information of the apartment as shown in [Figure 7.10]:

- Flat/Apartments Types
- Location of the apartment (includes details of the apartment as on the First Panel of the Land tab)
- Covered area of flat
- Super build up area of flat (it should be 20% or more than that of the covered area)
- Use of flat
- Floor type
- Encumbered by tenant or not
- Flat located in which floor
- Age of Flat
- Is property on road
- Flat no.
- 1st time registration or not
- Consideration value
After entering all details user have to save the data. After successfully saved one message box appears as shown below, where the user is asked whether he wants to insert another Apartments or not.
If the user wants to add other Flat details then he will have to click on the [Yes] button. On selecting [Yes] option, the user will see the next Apartment details entry page where he needs to fill up the Apartment details for the next Apartment. In this way user can enter multiple Apartments.

**Commercial/Semi Commercial complex**

If the property being transacted is a Commercial Complex or Semi Commercial Complex then changing the use of Flats /Apartments whichever is applicable has to be selected from the options as shown in the figure below:

1.1.7 Incomplete Requisition Form Entry

User can complete in-complete Requisition Form already entered. After clicking on the link “e-Requisition Form entry “user has to select the “Fill up Incomplete e-Requisition From” option from the message box displayed as shown in the figure below.
Then the following page will appear where user has to put Transaction Id and Mobile No or Applicant Details. Then Click on the [Search] Button and after that the incomplete query details will be displayed as shown in the following figure:

![Fig-25](image)

Then user has to click on the [Complete] button. One message box will appear asking whether user wants to Complete the Requisition Form or Not.

![Fig-26](image)
User has to click on the [OK] button. After that the requisition form entry page will appear and user will complete the requisition form as usual

1.1.8 Finalize:

1.1.8.1 Additional Transaction
User can enter other additional transaction details relating to the following Transactions i) Mortgage ii) Power of Attorney iii) Partnership iv) Other than Immovable Property if exists using Finalize option.

Example: User can enter a Declaration as

**Finalize → Additional Transaction → Major → Other than Immovable Property → Minor → Declaration**
User has to enter the number of Declaration and ‘Save’ the data. For example if user enter two declaration it will be displayed as:

![Image of form with data inserted]

1.8.1.2  Entry of Stamp Duty Amount to be paid by Non Judicial Stamp for e-Payment Case

At the time of e-Payment if user wants to pay some amount in non Judicial Stamp Paper and rest of the amount through e-Payment, then the amount to be paid by Non Judicial Stamp is to be entered in this page and this amount will be deducted from the total stamp duty payable amount.
### 1.1.9. Generation of Assessment Slip

After complete entry of requisition form user has to click on the Finalize link from right side tree. The following page will appear and user has to select the office where he wants to register the deed. After selecting the office name user has to click on the [Generate Query No] button for generation of assessment slip as shown in the figure below:

![Image of Assessment Slip Generation](image-url)
A unique number called query number will be generated and it will be displayed on the screen as shown in the figure below allotted to each assessment and user has to print the assessment slip.

The registration system is integrated with the Land Records System. Whenever any plot number is entered into the system for generation of market value, it provides information on the same title as available in the Land Records System.

The rate of Stamp Duty and Registration Fee depends on the type of document and varies accordingly.

A Sample e-Assessment Slip shown in the figure below:
